SUMMARY

Software engineering student focused on **frontend development with React.js and Next.js**, with full-stack experience across Node.js, real-time systems, and AI integration. Comfortable working in English and at a fundamental Japanese level.

EXPERIENCE

FPT Software (FSoft)

Frontend Developer Intern — **Next.js**

Jul 2025 – Oct 2025

Ho Chi Minh City, Viet Nam

- Developed frontend features with **Next.js** and **TypeScript** for an enterprise web application delivered to a **Japanese client**.
- Built responsive, spec-compliant UI components and integrated REST APIs with backend and QA teams.
- Worked in an agile process with code reviews and Japanese-standard documentation and quality requirements.

PROJECTS

GU.AI — AI Fashion Photography Platform

Full-stack — **Next.js**, **TypeScript**, **Node.js**, **MongoDB**, **Socket.IO**

2026 | Team of 3

guai.com.vn · github

- Built a full-stack SaaS platform (**Next.js** web app, REST API with **~85 endpoints**, and admin panel) with **9 AI tools** for fashion sellers — virtual try-on, model generation, and image/video editing, powered by Fashn.ai.
- Implemented **credit-based billing** with PayOS payments, subscription plans, and dynamic per-tool pricing.
- Integrated **Google Gemini** for an in-studio AI assistant with **RAG-based** template search, plus real-time notifications and support chat using Socket.IO.
- Built admin features for live monitoring, **RBAC** user management, and revenue analytics.

BookHub

Full-stack — **React.js**, **TailwindCSS**, **Node.js**, **Express**, **MongoDB**

2025 | Team of 5

github.com/Bookhub-SWD

- Built a full-stack platform for book lending and community discussion, supporting borrowing, lending, and user reviews.
- Developed the frontend with **React.js** and TailwindCSS for book search, personal library management, and review creation.
- Implemented backend services with Node.js, Express, and MongoDB for book availability, borrowing history, and community activity.

EDUCATION

FPT University

Bachelor's Degree in Information Technology

Oct 2023 – Feb 2027 (Expected)

Ho Chi Minh City, Viet Nam

SKILLS

Programming Languages: JavaScript, TypeScript, C/C++, Java

Frontend: **Next.js**, React.js, TailwindCSS

Backend: Node.js, Express, REST API, Socket.IO

Database: PostgreSQL, MongoDB

Developer Tools: Git, Docker, CI/CD

Foreign Languages: English, Japanese (Fundamental)

Interests: Software Development, AI Integration, High-Performance Systems, Competitive Programming

AWARDS & ACHIEVEMENTS

ICPC National Contest

Contestant — competed with top university programming teams in the region

2025
