EDUCATION

FPT University, Ho Chi Minh
Bachelor's Degree in Information Technology

Oct 2023 – Feb 2027 (*Expected*)

SKILLS & INTEREST

Languages: C/C++, JavaScript, TypeScript, Java
Tools & Frameworks: Git, Docker, CI/CD, Node.js, React.js, Next.js, PostgreSQL, MongoDB
Interest: Software Development, AI Integration, High-performance systems, Competitive Programming
Hackathon: System design skills and the ability to quickly release MVP products.

PROJECTS

BookHub *Personal Project, 2025*
• Built a full-stack platform for book lending and a community for book lovers, allowing users to borrow, lend, and discuss books.
• Designed a user-friendly interface with React.js and TailwindCSS, enabling users to search books, manage their personal libraries, and write reviews.
• Implemented backend logic with Node.js and Express, using MongoDB for database management to track book availability, borrowing history, and community interactions.

GU.AI — AI Fashion Photography Platform *2025*
• Full-stack SaaS with 3 apps (customer web, REST API ~85 endpoints, admin panel) letting fashion sellers create product photos/videos via 9 AI tools (virtual try-on, model generation, editing) powered by Fashn.ai
• Built credit-based billing with PayOS payments, dynamic per-tool pricing, and subscription plans; integrated Google Gemini for an in-studio AI assistant with RAG-based template search
• Implemented real-time notifications and support chat with Socket.IO, plus an admin panel with live monitoring, RBAC user management, and revenue analytics

EXPERIENCE

Intern Software Engineering, FPT Software (FSoft) *Jul 2025 – Oct 2025*
• Worked in a professional software development team, contributing to enterprise projects.
• Applied agile processes, participated in code reviews, and improved backend performance.
• Gained hands-on experience with real-world requirements, debugging, and deployment workflows.

AWARDS & ACHIEVEMENTS

ICPC National Contest *2025*
Participated in the ICPC National 2025 as a contestant, competing against top programming teams from universities across the region.
