SUMMARY

Software engineering student with hands-on experience in full-stack development, AI integration, and building MVPs. Strong background in JavaScript/TypeScript, React.js, Node.js, and database design. Comfortable working in English and at a fundamental Japanese level.

EDUCATION

FPT University, Ho Chi Minh City
Bachelor's Degree in Information Technology

Oct 2023 – Feb 2027 (Expected)

SKILLS

Programming Languages: C/C++, JavaScript, TypeScript, Java

Frontend: React.js, Next.js, TailwindCSS

Backend: Node.js, Express, REST API, Socket.IO

Database: PostgreSQL, MongoDB

Tools: Git, Docker, CI/CD

Languages: English, Japanese (Fundamental)

Interests: Software Development, AI Integration, High-Performance Systems, Competitive Programming

PROJECTS

BookHub

Personal Project, 2025

- Built a full-stack platform for book lending and community discussion, supporting borrowing, lending, and user reviews.
- Developed the frontend with React.js and TailwindCSS, enabling book search, personal library management, and review creation.
- Implemented backend services with Node.js, Express, and MongoDB to manage book availability, borrowing history, and community activity.

GU.AI – AI Fashion Photography Platform

2025

- Built a full-stack SaaS platform with 3 applications: customer web app, REST API with about 85 endpoints, and admin panel.
- Integrated 9 AI tools for fashion sellers, including virtual try-on, model generation, and image/video editing, powered by Fashn.ai.
- Implemented credit-based billing, PayOS payments, subscription plans, and dynamic pricing per AI tool.
- Integrated Google Gemini for an in-studio AI assistant with RAG-based template search, plus real-time notifications and support chat using Socket.IO.
- Built admin features for live monitoring, RBAC user management, and revenue analytics.

EXPERIENCE

Intern Software Engineer, FPT Software (FSoft)

Jul 2025 – Oct 2025

- Contributed to enterprise software development in a professional team environment.
- Participated in code reviews, agile workflows, debugging, and deployment processes.
- Improved backend performance and gained experience with real-world requirements and production-quality development.

AWARDS & ACHIEVEMENTS

ICPC National Contest

2025

- Participated as a contestant in the ICPC National 2025, competing with top university programming teams in the region.
